

ATONEMENT THE SYNOPSIS

You were right, Father, WE are the balance of power in the world, not the great nations of the planet. What good are all their armies? Where is their strength when pitted against us? Pegasus ponders. There is truly a dangerous, global game: setting in opposition the great powers of the world, and in this second novel of the trilogy they do it masterfully.

Destroying the remnants of the Ukrainian army at the Chornovil Army Base, the reconstituted Moscow government brazenly sets its sights on the next phase of their attempt to reestablish and expand the borders of the old Soviet Union – the Baltic nations, sought after since the time of Peter the Great. For that to happen America needs to be restrained and Western Europe needs to be given a reason not to become involved. It's Pegasus' job to ensure both.

Dazzling action rapidly revolves and evolves around the Wyoming Indian Reservation, Dallas and Russia as Pegasus' plan comes to fruition, despite the best efforts of the Committee on Terrorist Activity, a presidential appointed agency intended to replace the Department of Homeland Security.

Hold onto your seat - you'll already be holding your breath - as Police Inspector Danordet, CTA Agents Swartz and Sansouci, and French Inspector Monclare pit their collective abilities against those of Pegasus and his employer, Litvenov and the new Russian empire. Good reading and good luck, as America enters the twenty-first century ill-prepared to identify and combat terrorism in a new dimension.
