RETRIBUTION
THE SYNOPSIS

Shhhhhhhhhhhhhhhhhhhhhhhhh. The President is mad, unhinged by the murder of his wife – the stabilizing force of his life. As the Vice President and Cabinet plot their coup d'eta, they find the Chief Executive not quite as helpless as first thought. If you've been following along through the first books of this series, you've become comfortable with the characters – perhaps too comfortable. If you haven't been following along, you won't miss the subtleness of this story.

Not since the end of World War Two did Russia have so much territory under its immediate control as it does by the end of ***Atonement***. The judicious use of Pegasus by Litvenov has achieved the first two phases of Russia's overall plan for hegemony in the world. But what remains for the RSV Chief may be more than the reconstituted Politburo had imagined – the price too great.

Old, far past the age of retirement for a successful mercenary, Pegasus' father is goaded out of sequestration in order to aid his son as they lay their plans and extract ***Retribution***.
